

legend

- * = Generic Available
- ** = Prior Authorization Required

BOLD LISTINGS = Preferred Brand

PLEASE NOTE:

When a generic becomes available, the brand-name product will automatically move to the fourth tier. Drugs are subject to quantity limitations. When an equivalent product is available over-the-counter, the prescription product is no longer on the formulary.

Step Therapy: ensures that members use clinically appropriate drugs in a cost effective manner by requiring the member to try a generic medication prior to obtaining the brand medication in certain classes.
